### British Flagmakers

**Our heritage can be traced back as far as 1837, when George Tutill began producing processional banners and regalia. Tutill's flags were flown at the Great Exhibition of 1851.**

In 1872, originally based in South London and after winning a contract to supply the Royal Navy with signalling flags we soon became one of the world's leading manufacturers and suppliers of flags, banners and pennants. It is therefore fair to claim that our knowledge and expertise can truly be said to stretch back 180 years and that Flagmakers have become one of the major suppliers in the UK. We have also been recognised by and registered with The Flag Institute as a British Flagmaker for over 25 years.

With recent investment in upgraded facilities, we have also chosen to invest in a young and enthusiastic team to take Flagmakers forward in this fast-paced and competitive world. Although technology in flagmaking has come a long way and now ensures greater consistency, we are careful to retain the human touch as far as possible and strive to ensure that we still produce stunning hand-sewn and hand-painted flags, retaining the timeless skill of our craft.

Quality remains our driving ambition and is one that we consider with every item we produce or sell.

## Flagmakers is part of the Specialised Canvas Group.

### Accreditation

Made in the UK

#### Flag Institute Members

Currently holding a Gold membership symbolising our longevity as a flagmaker and support for the institute for over 25 years. The Flag Institute is the world's largest research and documentation centre for flags and maintains and manages the national UK flag registry.

#### CSCS

The Construction Skills Certification Scheme offers security and confirmation to our customers that our employees working around a construction environment have the required training and qualifications.

#### FESPA Planet Friendly Printing

We are committed to using environmentally-friendly and sustainable business processes throughout our production cycle.

#### Quality Assured Company

ISO 9001:2015 – Quality  
 ISO 14001:2015 – Environment  
 OHAS 18001:2008 – Health & Safety  
 This policy covers all divisions of the company and all products that we manufacture or supply. It includes all locations including work undertaken away from our premises and covers quality, environment and health & safety.

#### Supporters of the Flags & Heraldry Committee

The FHC is an all-party group of the UK Parliament who champion and promote the flying of flags associated with the UK. The group regularly liaises with experts on heraldry and vexillology (the study of the history, symbolism and usage of flags) and aims to educate on flag protocol.

### Key Features

**UK Made**  
 Made and assembled here in the UK.

**Bespoke Order**  
 Made to order.

**2-3 Days Delivery**  
 Delivery to any UK mainland address.

**5-10 Days Delivery**  
 Delivery to any UK mainland address.

**12 Month Guarantee**  
 All parts guaranteed by the manufacturer. Valid from date of purchase, proof of purchase required.

**No Tools Required**  
 Assembled without the need for tools.

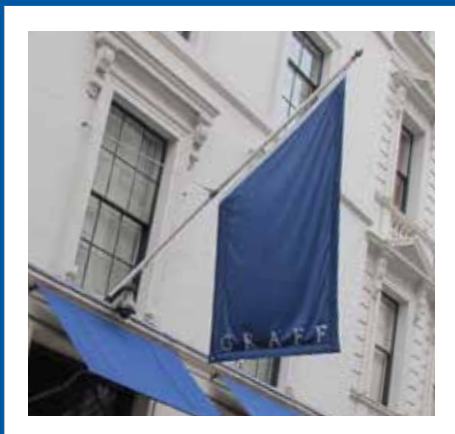

**100% Recyclable**  
 Please dispose of responsibly.

# FLAGS

Flags come in every shape and size, from finest quality sewn national flags to full colour printed corporate flags. There is no better way to enhance your branding with dramatic colour, movement and height.

Give your clients an unforgettable first impression by ensuring you always present them with an immaculate frontage complete with flag and flagpole.

## Appliqué Flags

Prestige locations demand an appliquéd flag. The original and still the most durable way to make a flag, our skilled, artisan flagmakers hand-make your flag from traditional flag fabrics.

The design for each flag is lovingly drawn to the base fabric, then each element of the design is sewn by hand to create a finished flag, which not only looks fantastic, but is also a real piece of art in itself. As standard, appliquéd flags have a mirror image on the reverse side - but can be double sided if preferred.

## Appliquéd Flags with a printed badge or crest

Best of both worlds - combining old world and new world techniques. We can print complex elements of your design to either Decotex fabric or knitted polyester and then sew to the field of your flag to create a result which has the look and feel of an appliquéd product but at a fraction of the cost of a fully appliquéd version. We are uniquely placed to offer this hybrid flag product because of our traditional and digital in-house flagmaking facilities.

- Ideal for club flags or pennants
- Great value
- Complex or multi-colour designs realised with a traditional finish
- Ceremonial Flags and Ensigns

# CEREMONIAL FLAGS

## Ceremonial Standards

Many organisations and associations have a ceremonial flag to display their emblem at events. We can supply according to the precise guidelines for these flags. Suppliers to:-

- The Royal British Legion
- Regimental Associations
- Scouts & Guides
- The Salvation Army

## Ceremonial Poles

Our ceremonial poles have screw joints and highly polished brass finials. The flag, when attached, should be sleeved and secured using a leather tab to the finial. This pole is ideal for use with association flags such as the Salvation Army or Boys Brigade.

## Ceremonial Flagpole Base Options

### Ceremonial Bases

Highly polished hardwood bases with brass inserts. A choice of 1, 2 or 3 pole configurations, compatible with all our wooden ceremonial poles.

- Perfect for indoor display

Single Pole

Double Pole

Triple Pole

# CEREMONIAL ACCESSORIES

## Leather Carrying Strap

This pole carrier has a very professional look with a size-adjustable brass buckle belt and a deep pouch and is compatible with the brass insert and all our ceremonial poles.

## Brass Bucket Insert

The essential brass insert is manufactured from a single piece of solid brass and will protect the base of the leather strap from wear when the ceremonial flagpole is inserted, ensuring the carrying strap will last for many years.

## White Ceremonial Gauntlets

Our superb high-quality white gauntlets are perfect for ceremonial and parade functions.

Available in small, medium, large and extra-large.

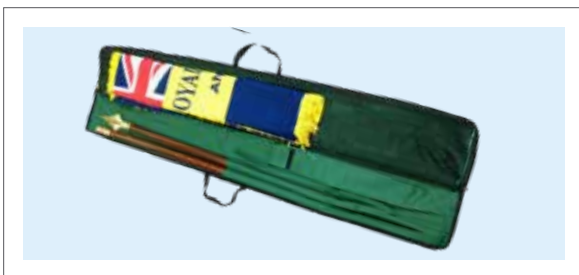

## Leatherette Carrying Bag

Our black leatherette storage bag is designed for carrying our ceremonial poles, keeping them in best condition.

Available to suit a 6ft, 7ft or 8ft Ceremonial pole with a cord fastening at the top of the bag.

## Premium Ceremonial Bag

Our premium ceremonial bag allows you to store your ceremonial poles safely. Available to suit a 6ft, 7ft or 8ft Ceremonial pole and with a strong zip fastener.

# SPECIALIST FLAGS

## Embroidered Flags

Embroidery produces the finest quality ceremonial flags. The design is re-created by stitching by hand or machine, often using gold and metallic threads to create a real aura of quality and detail. This provides a texture and depth to the design. Embroidery is normally used for indoor ceremonial or display flags, as they would damage easily outdoors due to their weight and to poor weather conditions.

## Hand Painted Flags

This traditional technique allows artistic images and heraldic designs to be applied to a flag. The artist creates the design by using acrylic paint. Firstly, any appliqué detail is added to the flag and then the actual flag itself is painted.

**National flags are made in traditional sizes. We manufacture flags in yard sizes starting from half a yard and up to 6 yards. We can also make bespoke sizes, if required!**

## British Flags

As one of Britain's oldest flag makers, we supply the widest choice of union flags available. All our flags are offered in three alternatives, giving a choice for all situations:

- Sewn flags
- Dye printed woven flags
- Digitally printed flags

All flags are finished ready to fly with a headband, rope & toggle to attach to the flagpole.

## Flags of the United Kingdom

The flags of the home nations are sewn to the required design. Manufactured from MoD grade flag bunting and finished with a high quality rope & wooden toggle.

**We offer a full range of design, manufacture, installation and maintenance services for your flag.**

## Digital Print

We've been making flags for over 175 years, so we do know a thing or two about doing it properly. Digital Print has revolutionised flag making in the last decade. We've stayed at the forefront of technology with one of the UK's largest and most sophisticated production facilities, backed up with decades of know-how.

### The critical difference

**Print - Fix - Wash** - Unlike other printers we COLOUR FIX AND WASH all our outdoor fabric prints before they are dispatched so no colour runs - GUARANTEED!

### Imagine the possibilities

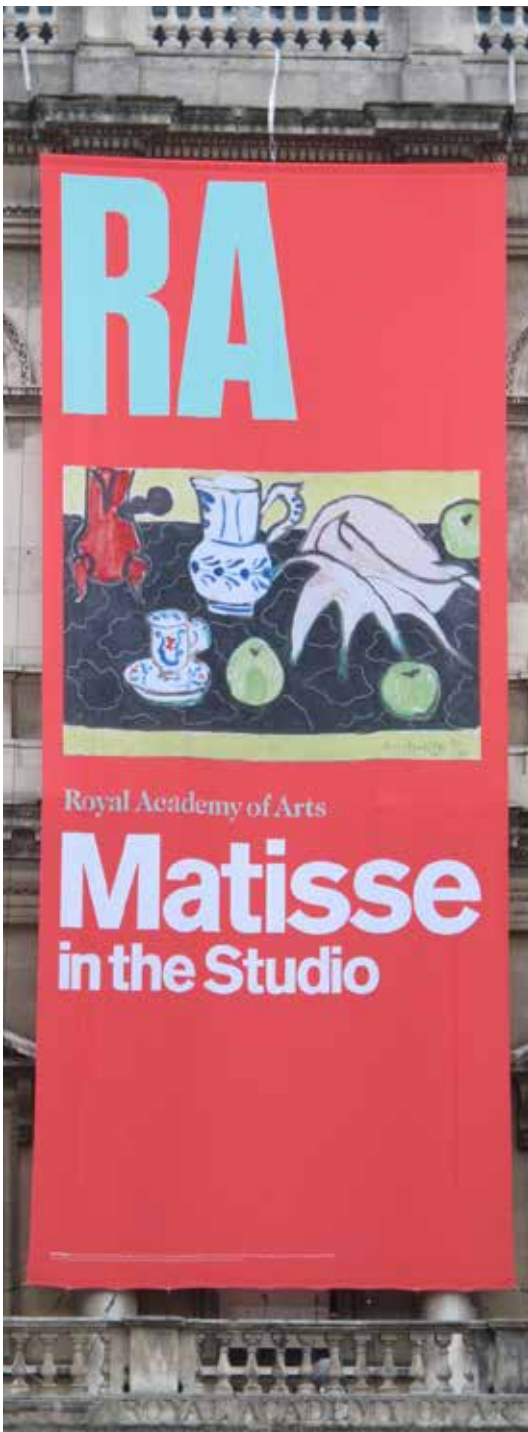

Digital print lets you do things with flags that you never could before. Multiple one-offs, or large scale, you can realise a world of choices

## Dye Sublimation

Dye sublimation flags are perfect for a vast range of flag products but are particularly suited to higher volume requirements, typically orders for 100 units or greater. Dye sublimation is perfect for accurate reproduction of Pantone™ colours and corporate identity.

Suitable for spot or process (full) colour images dye sublimation has the flexibility to cover all but the most specialist requirements. Each flag is hand finished with a sturdy headband and your choice of D-rings, clips or toggles.

# WINDCHASER FLAGS

Windchaser Flags bring height, colour and movement and relay a message well. They are simple to use and available in 5 different styles. Printed in full colour to knitted polyester.

## Aero

The Aero Windchaser is the classic feather flag format. The curved top and square bottom maximises the area available for graphics and curved top edge holds the flag out, guaranteeing the message is always visible regardless of wind strength.

## Blade

The Blade Windchaser has a teardrop shape which makes it stand out in a crowd. The whole flag is held tight so there is no fluttering or curling, guaranteeing the flag image is always visible.

## Mistral

The Mistral Windchaser is our most popular. The curved top and base mirror each other giving a stylish design without compromising on the graphics area. It uses a flexible glassfibre pole which is tensioned as the flag is sleeved onto it. The flag flies in the expected way giving movement and colour.

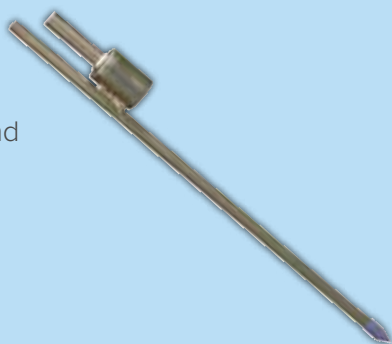

## Base Options

### Spiked Base

Spiked bases are for outdoor use and allow Windchasers to be discreetly and securely positioned onto soft surfaces. The smooth bearing action helps easy flag rotation.

### Drive-on Base

This base enables Windchaser flags to be used in conjunction with a car or other vehicle. Simple to install, they form a secure anchor point and enable highly visible branding on the forecourt.

## Sirocco

The Sirocco Windchaser has sharp lines for a clean look. The curved top holds the flag on display whilst the angled base draws the eye. Each flag comes with your choice of base and a sectional glassfibre pole. Easily assembled without tools, once secured to a base they will withstand the rigours of an outdoor event season.

## Forecourt

The Forecourt Windchaser is perfect for vehicle sale, rental and promotions. The 2m flag is used with a 4m pole which elevates the graphic and ensures the flag flies clear of the vehicle. It comes complete with a drive-on base and is compatible with a variety of vehicle types.

### Waterfilled Base

The waterfilled base is very handy as it can be moved anywhere and when filled with water sits in place securely. Comes complete with bag, spigot and pegs.

# FESTIVAL FLAGS

Festival flags are a brilliant way to add colour, height and movement to any event or festival. They comprise a 12ft (3.6m) real bamboo pole with an eye-catching flag in a choice of standard designs and come complete with a spiked base ready to install.

## Custom Flag Shapes

Incorporating your artwork based on standard shapes or totally unique - custom designed with product replica shapes and colour schemes. Send us images of your product and we'll create the flag artwork.

## Standard Flag Shapes

Festival flags are a great Eco-friendly flag product. The bamboo poles are grown in China and are incredibly strong. Standard height is 12ft (3.6m) and flags are printed to a re-cyclable polyester fabric.

Each flag comes with a ground spike to secure firmly and a rotating arm to hold the flag in light winds.

# SPORTING FLAGS

## Race Marshal Flags

Marshals' flags are an important safety feature at all motor racing venues, enabling quick and clear communication from trackside to the drivers. Our flags conform to the FIA recommended patterns.

- Finished with sleeve and ties
- Made to regulation sizes
- Available with or without poles

**Black & Orange**  
Car Needs to Stop

**Red & Yellow**  
Oil or Debris on Track

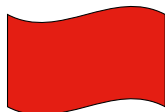

**Black & White**  
Unsportsmanlike Conduct

**Green**  
Restart After Safety Car or Hazard

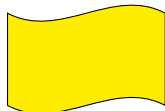

**Black**  
Disqualification or Penalty

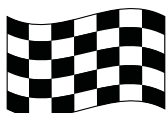

**Red**  
Session Stopped

**Blue**  
Faster Car Approaching

**Yellow**  
Local Caution

**Chequered**  
End of Race or Session

**White**  
Final Lap or Slow Vehicle on Track

## Golf Pin Flags

- Available plain or printed
- Standard size 450mm x 350mm
- Sleeve and ties to fit any existing pole

## Clubhouse Flags

Choose from our printed or sewn options for a fine quality club flag. Made to order - so any size can be ordered.

# BUNTING

Bunting is a great way to dress a building or venue. Originally made as a simple decoration to brighten up an area, it is now a great method of promotion and can be used as a PoS display.

## Printed Bunting

Printed Bunting is a totally bespoke product and can be manufactured to your requirements. Pennants can be rectangular, triangular or die-cut to shape. We have a wide choice of materials and can make up in any length.

## Plain Bunting

Our multi-coloured Bunting is manufactured from re-inforced PVC and is ideal for many different applications. 10 different alternate colours as standard, or we can produce with the colour combination of your choice.

# FLAG MATERIALS GUIDE

## This is a list of a few of the materials that go into the production of our flags

**Airflow** A perforated 115 gsm perforated knitted polyester, originally used for beach flags. Suitable for large format flags as the mesh allows for air circulation.

**Anti-Fray** A strip of netting stitched to the fly edge of a flag to reduce whip, protect from fraying and lengthen the life of the flag.

**Appliqué** Decorative and detailed ornamental needlework, in which smaller sections of fabric are sewn onto a larger background panel.

**Decotex** A heavy 205gsm knitted polyester fabric ideal for display flags.

**FR** Flame Resistant.

**GSM** The metric measurement of the weight of the fabric; grams per square metre.

**Heavy polycotton** A heavy 200gsm material, commonly used for parade or ceremonial flags and combines the soft feel of cotton with the non-iron properties of polyester.

**Heraldic** 200gsm highly lustrous woven polyester fabric with a slightly ribbed construction. A premium ceremonial fabric for high quality flags that require an impressive finish.

**Knitted polyester** A light-weight 115gsm material commonly used in flagmaking.

**Woven polyester** An MoD grade 155gsm base material, primarily used as the background or 'field' of a flag.

## Supplying Artwork

Artwork can be supplied via email (8mb file size limit). If files are of a larger size, then use a third-party upload site such as **www.wetransfer.com**

Artwork can also be supplied on a CD, DVD or USB drive memory stick.

## What We Need

A print ready artwork file. This will consist of all images embedded, fonts converted to outlines and Pantone™ coated (c) references where appropriate. If it is not possible to embed images and convert fonts to outlines then these must be supplied along with the artwork. If your artwork contains Pantone™ references, we will print to the closest possible match. We cannot match to metallic or fluorescent colours. If no Pantone™ references are supplied or a colour accurate proof is not provided, we will print from your artwork and cannot be held responsible for inaccurate colour reproduction. If you are unable to provide print ready artwork, our graphics studio can help, subject to a further charge.

## Software We Use

### Adobe Illustrator CS6 (.ai/.eps/.pdf)

Convert all fonts to outlines and embed all images. Specify Pantone™ colours where appropriate. Make sure overprint is turned off.

### Adobe Photoshop CS6 (.psd/.pdf/.tif/.jpg)

Resolution must be 300dpi at quarter size. For close viewing increase the dpi but keep the file size to under 2gb. Ideally full size at 100dpi.

### Adobe Acrobat CS6 (.pdf)

Please export artwork and all relevant files as a High Resolution PDF. All PDF's must be set to 'High Quality Print' setting with no compression.

## Help? Advice? Talk to us!

If you require any help or advice on any of the products shown in the catalogue, please contact us either by phone, email or online. We will be happy to discuss any of your requirements or questions you may have.

# dryrainge™

BY **Flagmakers** est. 1837

The dryrainge offers the ultimate in protection against wind or rain and serves as an ideal source of protection from harmful UV rays. It is an affordable, semi-permanent and portable, all weather driving range shelter.

## Ease of assembly and portability...

The dryrainge's design allows it to be quickly assembled over both natural grass and artificial tee surfaces.

- The dryrainge can be easily assembled in under an hour.
- The ease in which the dryrainge can be relocated allows for renewal of natural grass surfaces.
- The dryrainge provides an inexpensive, aesthetically pleasing and maintenance free substitute to permanent shelters.

## Get more from your range, with dryrainge

Provide your membership and golf professional with increased practice time.

- Members can hit balls off natural grass, allowing for easy transition from practice tee to first tee box.
- During rain delays, allow your members the opportunity to practice their swing.
- Cancelled golf lessons due to rain or wind are a thing of the past, lessons stay on track due to reduction of lost days.

## Don't let range revenues get blown or washed away!

The dryrainge pays for itself!

- The dryrainge allows you to capture range revenue that had previously been lost due to weather.
- Golf schools, clinics and demo days previously cancelled due to weather, go on as scheduled.
- Increased exposure to your facility provides the opportunity for pro shop sales, lessons and rounds booked.
- Dryrainge comes equipped with a 2 x 10 material overlay that can be utilized as advertising for sponsorships or course logos.

## Strength and durability...

- The dryrainge frame is constructed of 2 3/8" structural round tubing with strength that surpasses that of pipe.
- Tubing is galvanised for ultimate durability.
- This quality finish is resistant to corrosion, abrasion and fading from sunlight.
- The cover is made from a high strength industrial material which provides strength and protection from the elements.
- The cover is made in a dark green colour to blend with the environment.
- Dryrainge is available in both a two or three man size, adapting to your range space.

## What the Golf Professionals are saying...

"We were considering a permanent structure but it doesn't offer the flexibility of the dryrainge."

"The dryrainge has enabled us to keep on schedule with lessons. Without it, rebooking and cancellations were a continuous problem."

"The members love it. It doesn't matter what type of weather, rain or shine, someone is always using it."

# FLAGPOLES

**Flagpoles are a traditional way to announce your presence and make a statement. Whether you are flying a national or corporate flag we aim to guide you through the various options to help you make the right choice.**

## **Flagpole Installation**

Flagmakers have dedicated flagpole installation teams that cover the whole of the UK. Our fully qualified engineers are just the guys for the job and with the relevant and expected Construction Skills Certification (CSCS), you can rest assured your installation will be carried out professionally and safely. Our London team have been installing flagpoles for some of the city's best known landmarks and top hotels for many years but their qualifications give you additional confidence.

## **Flagmakers Flagpole Service**

BS 559 states that there is a legal responsibility for both the owner and installer of a flagpole to ensure ongoing maintenance takes place. We can inspect and carry out essential maintenance on your flagpole at agreed intervals to ensure compliance.

## **Flagmakers Flag Change Service**

The flag you fly represents you and your business and you will want to ensure that your flag is always in immaculate condition. We can help with this, by changing your flag whenever it looks a little less than perfect, for another, and whilst this replacement is flying, we will launder and repair the other, which we will then keep ready for the next time a change is required. You can choose to have this changeover on a monthly or quarterly basis or whenever preferred, and we will schedule our dedicated London team to attend and take care of this for you\*. You will always have two flags on the premise that one is always flying and the other in the wash. This way, we can ensure that your flag and pole are in pristine condition.

\*In addition to this we can also provide a half-masting service.

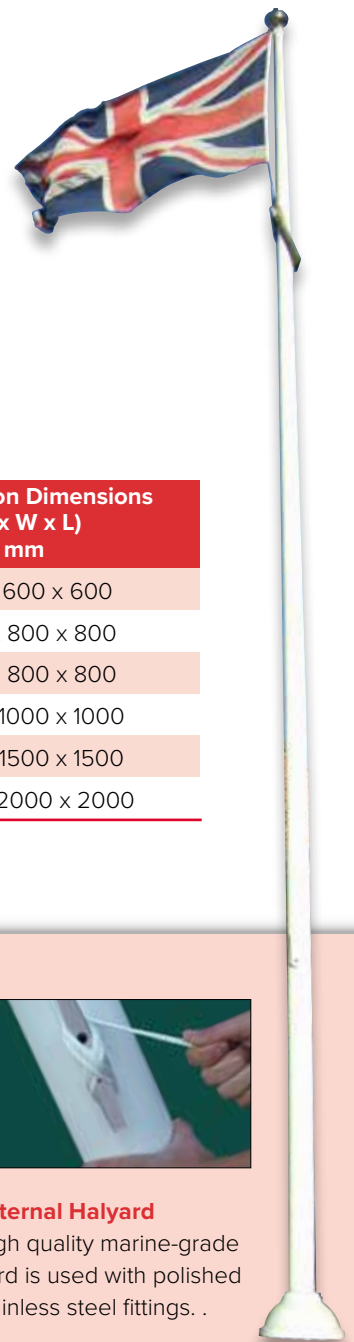

# PREMIUM FLAGPOLES

## Architectural Flagpoles

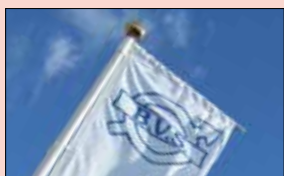

Our architectural aluminium flagpoles are perfect for prestigious locations and are produced from an aluminium tube, tapered with a smooth and elegant profile. To ensure the highest standards of quality, all have polished cast aluminium cleats, braided marine-grade polyester halyards, machined aluminium tops and a durable, anodised and powder-coated finish.

### Architectural Flagpole Specification

Pole Length (m)	Construction (parts)	Diameter Bottom/Top (mm)	Weight (Kg)	Maximum Recommended Flag Size m <sup>2</sup>	Foundation Dimensions (D x W x L) mm
6	1	114/60	13	2	800 x 600 x 600
8	1	114/60	18	3.5	1000 x 800 x 800
10	1	165/76	30	4.5	1000 x 800 x 800
12	1	165/76	41	5	1500 x 1000 x 1000
15	2	165/76	250	6	1500 x 1500 x 1500
20	2	220/76	350	6	2000 x 2000 x 2000

## Features

### Rotating Arms

Rotating heads can be fitted to all Architectural Flagpoles up to 12 metres.

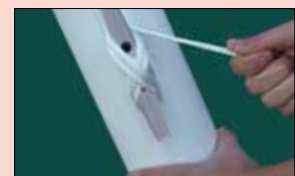

### Base Plates

Fixed or hinged bases are available for all heights of pole.

### Internal Halyard

A small lockable door gives access to the interior of the pole and a weighted collar keeps tension on the flag.

### External Halyard

High quality marine-grade cord is used with polished stainless steel fittings.

# BEST SELLER FLAGPOLES

## Glassfibre Flagpoles

Glassfibre construction allows the manufacture of these highly cost-effective poles, which feature a very smart, tapered, single-section design.

For those who wish to enjoy the aesthetic benefits of an elegant single-piece pole, this high-quality range presents the ideal opportunity.

All poles are supplied in one section.

Vertical and angled wall mount brackets available.

### Glassfibre Flagpole Specification

Pole Length (m)	Construction (parts)	Diameter Bottom/Top (mm)	Weight (Kg)	Maximum Recommended Flag Size m <sup>2</sup>
3	1	76/50	5	2
4	1	85/50	5.5	2
5	1	95/50	6	2
6	1	100/50	9	2
7	1	113/50	11	2.5
8	1	115/50	13	2.5
9	1	135/65	21	3
10	1	140/65	26	3
11	1	142/65	30	3
12	1	145/65	36	3
15	1	178/75	49	4
18	1	186/75	65	6

Full technical specifications and installation instructions appear online.

## Features

### Hinged Base

Hinged bases fitted as standard.

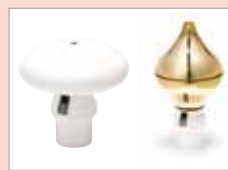

### Internal Halyard

Supplied with a lockable access door and cleat (or crank handle on larger poles).

### External Halyard

A sturdy plastic cleat enables external halyards to be secured.

### Finials

Economy and premium quality finials are available in white or gold.

### Rotating Arms

Rotating arms up to 1 metre width can be fitted.

## Vantage Flagpoles

Vantage Flagpoles are our best-selling and most versatile range. We can supply with an internal halyard, giving the required security and clean lines that were once only available on more expensive poles.

Made from aluminium, they are extremely durable and will stand the test of time in all weather conditions. They are available in sizes ranging from 4 metres to 10 metres.

- Vertical and angled wall mount brackets available

### Vantage Flagpole Specification

Pole Length (m)	Construction (parts)	Diameter Bottom/Top (mm)	Overall Height (m)	Visible Height (m)	Maximum Recommended Flag Size m <sup>2</sup>	Foundation Dimensions (D x W x L) (mm)
4	1	60	4	3.5	2	600 X 600 X 800
5	2	60	5	4.5	2	600 X 600 X 800
6	2	60/75	6.8	6	2	800 X 800 X 800
8	2	60/75	8.8	8	2.5	800 X 800 X 800

Full technical specifications and installation instructions appear online.

## Features

### Ground Sleeve

A ground sleeve is the standard fitting on vantage poles. Simple but highly secure.

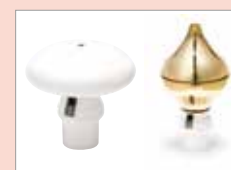

### Rotating Arms

Rotating arms up to 1 metre width can be fitted.

### Weighted Collar

Used on poles with rotating arms or an internal halyard.

### Finials

Economy and premium quality finials are available in white or gold.

# SHORT WALLMOUNT FLAGPOLES

For most buildings, Short Wall Mounted Flagpoles are the ideal way to display a flag. Manufactured from 45mm aluminium with welded aluminium brackets.

## Angled Flagpoles

Angled brackets securely hold the pole at an angle of 45 degrees. Longer poles come with stay-wires as standard to ensure stability.

*For large wall mounted poles see our Premium and Best Seller ranges*

## Vertical Flagpoles

Vertical poles are available in 4 lengths and each pole has a tough powder-coated finish. Complete with a white finial, cleat and halyard.

*Suitable for domestic and light commercial use.*

### Short Wallmounted Flagpole Specifications

Pole Length (m)	Pole Diameter (mm)	Vertical Brackets	Angled Brackets	Stay Wires (Angled only)	Maximum Recommended Flag Size m <sup>2</sup>
.5	45	1 Piece	1 Piece	Optional	1.5
2	45	1 Piece	1 Piece	Optional	1.5
2.5	45	2 Piece	2 Piece	Included	2
3	45	2 Piece	2 Piece	Included	2

### Wall Mounted Brackets

Vertical Bracket

Collar used with 2.5m and 3m Poles

45 Degree Angled Bracket

## Budget Aluminium Flagpoles

The Budget flagpole suits a wide range of locations but is particularly good where a quantity are required. Maintenance-free aluminium construction and supplied in 2 parts for ease of delivery to site.

*Very competitive pricing means you will not find an equivalent pole at a better price.*

## Budget Glassfibre Flagpoles

These superb value one-piece Glassfibre poles are ideal for domestic or commercial use and are a favourite of the construction industry for their ease of installation and great price. Available in 6m, 7m and 8m sizes, they come complete with ground sleeve, finial and external halyard. Rotating arms are available as an option.

All poles are supplied in one section.

## Budget Portable Flagpoles

The Budget Portable flagpole suits a wide range of locations but is particularly good where a large number are required. Maintenance-free aluminium construction and supplied in push-together sections for ease of delivery to site. Rotating arms are available as an option on all sizes.

### Budget Aluminium Specifications

Pole (m)	Construction (parts)	Diameter Bottom/Top (mm)	Maximum Recommended Flag Size m <sup>2</sup>	Foundation Dimensions (D x W x L) mm
6	2 Piece	60/50	2	800 x 800 x 800
8	2 Piece	60/50	2.5	800 x 800 x 800

# PORTABLE FLAGPOLES

## Portable Flagpoles

Portable Flagpoles make it possible to fly the flag whatever the location.

Used at sporting events, shows, exhibitions, retail premises and motor dealerships across the country. These robust flagpoles are a mainstay of outdoor events. Their versatility and ease of use makes them a hassle-free option.

## Mobile Glassfibre Poles

Our 6m full size Glassfibre flagpole can be installed in any location using these aesthetically pleasing but highly stable bases. Concealed underneath the white base cover is a 250kg cast-concrete base with lifting eyes and forklift slots. We provide specialist delivery and installation.

*Hire or Purchase options available on this product.*

## Indoor Flagpoles

For exhibitions, hotels, clubs and for regimental, ceremonial and corporate use. The Indoor flagpole range is a high quality solution. Features heavy steel bases and can carry as many as six individual flag poles:

- Available in a white or black finish
- Gold finials available
- Pole heights from 1.5m to 2.5m
- As specified for UK citizenship ceremonies

## Indoor Flagpole Base Options

Single Pole

2 Pole

3 Pole

4 Pole

5 Pole

6 Pole

## Warning! Jargon occasionally used.

<b>Anodised</b>	A protective coating, typically for aluminium; an oxide layer applied using an electrolytic process.
<b>Cleat</b>	A fitting used to secure the Halyard to the flagpole and keep it in place once the flag is hoisted.
<b>Finial</b>	A cap fitted at the very top of the flagpole, usually in the shape of an onion or mushroom. It is usually white or gold.
<b>Ground Sleeve</b>	This is a sleeve which a standard flagpole slots into. Simple but highly effective and secure and can be used in the earth or in concrete.
<b>Guylines</b>	Cables or ropes used to restrain and secure a flag, preventing it from falling over.
<b>Halyard</b>	The rope used to hoist the flag up the flagpole. These can either be external (visible) or internal (more secure).
<b>Hinged Base</b>	Used with a pole made in one part and allows for easy installation and maintenance.
<b>Rope &amp; Toggle</b>	A short length of rope attached to the headband on the left side of the flag and held in place at the top by a wooden toggle - supplied with all flags intended for flying in the conventional way.
<b>Rotating Arm</b>	Used typically for portrait orientation. It is a light metal arm at the top of the flagpole which holds the flag out even when there is no wind.
<b>Weighted Collar</b>	A device which keeps the flag under tension, especially when used in conjunction with a Rotating Arm or internal halyard flagpole.

## Help? Advice? Tak to us!

If you require any help or advice on any of the products shown in the catalogue, please contact us either by phone, email or online. We will be happy to discuss any of your requirements or questions you may have.
